

DIGITAL MARKETING FOR OPTIMIZING BUSINESS (DIGITAL & SOCIAL MEDIA MARKETING)

Mr. M.A. Shaikh Wajeed, Research Scholar, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, India.

“A brand is no longer what we tell the consumer it is, it is what consumers tell each other it is.”

INTRODUCTION:

CHANGING TRENDS IN BUSINESS:

No business can grow without having an online presence at minimum or leveraging e-business technologies to help end users to purchase products & solutions. E-Commerce Integration allows visitors to purchase the furniture they like with just few clicks while providing wide variety of furniture. Having successful online presence will help you drive more business and increase your business reach.

Trends that are going to affect future of Marketing:

- Mobile Apps is going to be the centre of marketing.
- Need for every day new stuff/arrivals.
- Brand will own their audience by entering into direct conversation with the customers.
- Focus on personalized marketing.
- Social media posts, online review, blogs, tweets will create positive impact on customers mind.
- Showing market presence will remain important.

Digital Marketing will remain as the most powerful way of marketing in the future. Because:

- People have started looking for more interesting and informative things on internet.
- Rich content drives the customer towards product rather than the perspective of selling.
- Personalized marketing activities targeting specific set of audience and influencers will be given higher importance.
- Studying buying behaviours – Online Purchasing has emerged one of the best experience by customers but only when bought from trusted sellers and that we have already crossed the Stage to win the Brand Image.
